Hybrid Edition gives you the most efficient hot tub with extra features, options and upgrades

1. **100% Cavity Filled Insulation**
Save $699

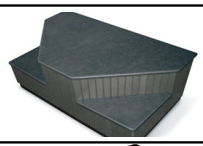
Every available space of the hot tub cavity is spray filled with energy saving Icynene foam to maximize heat retention of the hot tub vessel. The vapor barrier insulation rates at a high R3.6 per inch providing the best energy efficiency, and prevents moisture or air penetration.

2. **Energy Saver**
Save $399

Program up to the minute flow to reduce power use and save money. Our quick-disconnect system allows quick service, preserving heated water without draining. Built in concert with 100% Cavity Filled Insulation, you have a Hybrid Edition hot tub giving you the maximum massage with the lowest energy use and cost.

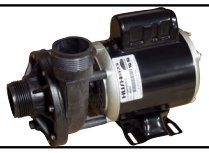
3. **SafeAxiss™**
Save $479

SafeAxiss Steps gives you a double tiered step, making entry and exit safe and easy for everyone. This weather proof cover protects your cab forward Energy Saver Management System from the elements.



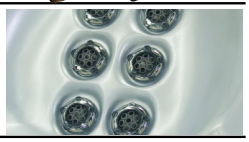
4. **Hush Pump™**
Save $399

The Hush Pump a very quiet, high flow filtration water pumping system that cleans and heats your hot tub 24/7. Beachcomber's Hush Pump gives you very low electrical power usage to save you money on energy costs.



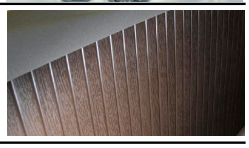
5. **Britewerx™**
Save $299

Britewerx FlexJet lets you change the number of jets you want in your hot tub at no extra cost to you. Not only the number of jets and the massage type, but the width and intensity to improve your health benefits



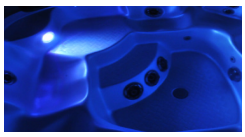
6. **Enviroskirt™**
Save $399

The Enviroskirt is a high quality, environmentally friendly, maintenance free cabinet finish. It is hand crafted for proven durability, to give you long lasting beauty and contributes to energy efficiency.



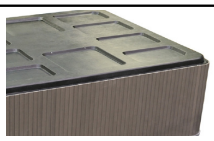
7. **EverLite™**
Save $99

The Everlite at the touch of a button changes the color of your hot tub water from a clear light, to every color in the rainbow. Our EverLite underwater mood lighting costs only pennies a year to operate!



8. **Perma-Seal**
Save $449

The Perma-Seal is a tough ABS foundation that completely seals the bottom of your hot tub. This construction eliminates ground elements like water, moisture or air penetration into the fully insulated cavity.



9. **Power Guard™**
Save $199

The Power Guard hot tub cover seals in heat like the cap on a thermos bottle. A complete vacuum seal is also created around the perimeter of the hot tub and at the seam to prevent heat loss and save you energy costs.

10. **Metallic Finish**
Save $119

The Metallic Acrylic Finish is a tough, durable and easy to clean surface, backed by Beachcomber's Glassloc 2000 strengthening process, enables us to give you a lifetime structural guarantee on the hot tub you choose.

11. **RFMassage™**
Save $399

The Reflex Foot Massage gives you a powerful, invigorating foot massage. At the turn of a dial,powerful water jets flow to your feet for the perfect foot massage, for better health and wellness benefits.

12. **ClearTech**
Save $99

The ClearTech UVC Water Care System is pre-plumbed in a Hybrid with the ability to have maintenance free water care, This is an optional automatic UV light sanitization system, for clean, fresh, safe water.
